DETAILED ACTION

Application Status

1. A preliminary amendment was filed on December 7, 2000 that cancelled claims 1-10 and 19-31. Claims 11-18 are pending in the instant application.

Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:
 - I. Claims 11-14, drawn to *Polyporus pinsitus* laccase mutants related to SEQ ID NO:2, classified in class 435, subclass 189.
 - II. Claims 15-18, drawn to *Myceliophthora thermophila* laccase mutants related to SEQ ID NO:10, classified in class 435, subclass 189.

3. The inventions are distinct, each from the other because of the following reasons:

Groups I and II are related as laccase mutant enzymes from different species. These Groups are distinct from each other based on the wholly distinct structures (sequences) of the claimed enzymes. While these Groups are identically classified in the U.S. Classification system, the search for each group is not co-extensive since the parent sequences are wholly different. Moreover, the textual search in non-patent literature will be different based on the distinct sources of the two parent enzymes. Additionally, the extensive analyses of the sequence search results, based on the individual mutations claimed, presents a serious search burden on the Examiner to examine more than one of these distinct groups together.

Election

4. A telephone call was made to Reza Green on January 29, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(i).

Conclusion

5. A complete response to the instant Office action must include an election of invention to be examined.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kathleen M Kerr whose telephone number is (703) 305-1229. The examiner can normally be reached on Monday through Friday, from 8:30am to 5pm.
